THE KID'S SAFETY SOURCE

Volume 7, Number 3

## Find these words!

R O S W L A L K T U J  
B S M O K E I P L N E  
W F J P O Y G B V C D  
I H Y B G Q H X T Z A  
W E N U H J T L D W R  
I F I R E L E D R F O  
S E U N R P R J C H X  
D R M A S H S T L A C

These words  
are in  
the puzzle.  
Circle them.

Fire

Smoke

Two

Lighters

Burn

Use the words from the puzzle. Write the best word in each blank.

We have \_\_\_\_\_ drills at school.

Matches and \_\_\_\_\_ are for grown-ups.

I know \_\_\_\_\_ ways out of my home.

When the \_\_\_\_\_ alarm sounds, get out quick!

I don't touch things that are hot. They can \_\_\_\_\_ me.

# Feature Fire Fighter

## Meet the Seattle firefighters that work on the fireboat.

**Dave Folsom, Bob Burtch, Greg Elder, John Hill, Brian Griffin**

safe around the water. Pilot Bob Burtch says, "Kids should always wear their life jackets when they are on a boat."

There are four jobs for firefighters to do on the fire boat. The Pilot drives the boat. The Engineer makes sure the engines keep running. The Officer is in charge. Then there are the Deckhands. Engineer Brian Griffin says, "The deckhand is one of the hardest jobs on the fire boat". They have to be able to do everyone's job. The whole crew works together as a special team. Pilot Bob Burtch says, "We have a big job to do. We work together to get the job done."

The Seattle Fire Department has a special type of fire engine. It is a fire boat named Chief Seattle. The fire boat does the same things a fire engine does, but it does them on the water. The firefighters who work on the fire boat help people who are sick or hurt. They put out fires. They rescue people.

The firefighters who work on the fire boat practice water safety all the time. They have special life jackets that look like bright red coats. Firefighter John Hill says, "We wear life jackets any time we are on the boat".

The firefighters who work on the fire boat want kids to know that it is important to be

# Fishing for Safety

Help the firefighters on the fire boat catch all the safe things under the water. Draw a line from each fishing pole to the safe thing. Be careful! There is one thing under the water that is dangerous. Draw a red X through it.

**Teach Crash, an alien from the planet  
Accidents Happen, how to do one of the  
following:**

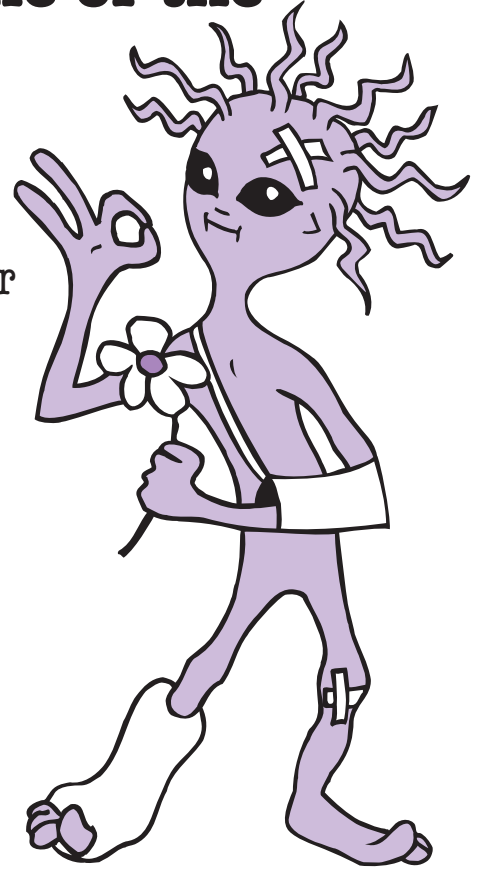

Put on a bike helmet

Safely cross the street

Put on a life jacket

Tell a grown-up you found a lighter

**Draw a picture to show Crash how to do it right.**

**Write down some words to help Crash remember how to stay safe.**
